Fund showing various information relative to orders which were placed in FY 1953 but still not delivered at the close of that year.

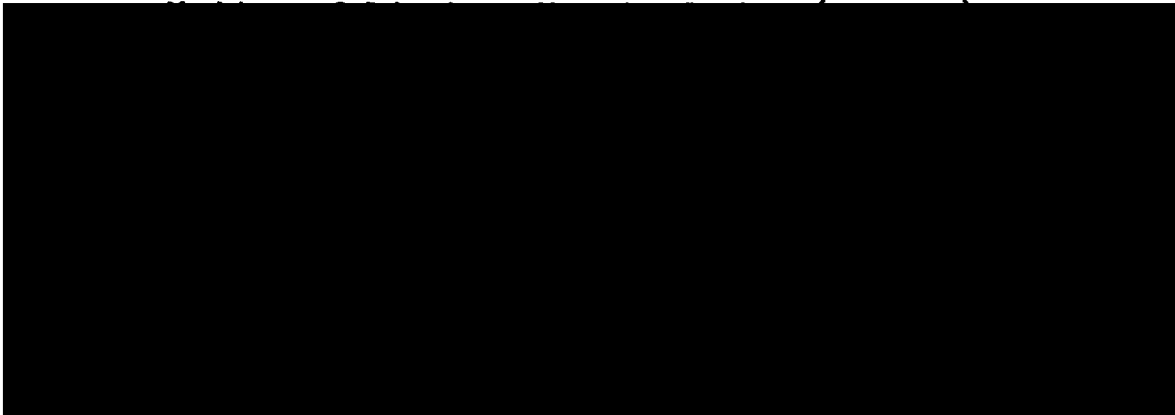

It became necessary to compile this report because the moneys which were not disbursed from the fund at the end of FY 1953 were recalled and all disbursements made after 1 July 1953 were charged to FY 1954 funds regardless of the fact that some of the orders were placed by this Agency in FY 1953 and the Purchase Orders written by GSA prior to 1 July 1953. Also, as established, this fund was a continuing fund not affected by Fiscal years.

At the beginning of FY 1954 approximately [REDACTED] was placed in the GSA working fund and FY 1954 orders placed against it. However, due to the drain of both FY 1953 and FY 1954 disbursements against it the fund was soon exhausted and the entire FY 1954 Supply Division stock replenishment program placed in an extremely unsound position both financially and logistically.

25X1A1a

The above mentioned report has been transmitted to LO/Admin Staff and further developments are awaited.
